Notes to the Financial Statements For The Year Ended 30 June 2023

Note 1 : Statement of Significant Accounting Policies

The financial report covers Victorian Billiards & Snooker Association Inc. as an Individual entity. Victorian Billiards & Snooker Association Inc. is an incorporated association and is governed by the Associations Incorporation Reform Act 2012 (Vic) and the terms of its constitution.

Basis of Preparation

The financial report is a special purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations and the Associations Incorporations Reform Act 2012 (Vic). The committee of management has determined the association is not a reporting entity.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

The financial report has been prepared on an accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

a. Income Tax

As a not for profit organization under the Australian Tax guidelines (NAT 7967), Victorian Billiards & Snooker Association Inc. is not required to pay Income Tax and therefore no tax is calculated nor reported.

b. Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair values as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and Equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by the board of management to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of expected net cash flows that will be received from the assets' employment and subsequent disposal. The expected net cash flows have been discounted to their net present values in determining recoverable amounts.

The cost of fixed assets constructed within the association includes cost of materials, direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the association and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

c. Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, is depreciated on a straight line or diminishing value basis over their useful lives to the commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

Class of Fixed Asset	Depreciation Rate
Plant & Equipment	10.00 – 30.00%

The asset's residual values and useful lives are reviewed and adjusted, if appropriate, at each balance date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation relating to that asset are transferred to retained earnings.

d. Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to the association are classified as finance leases.

The association currently has no leased assets.

Notes to the Financial Statements For The Year Ended 30 June 2023

Note 1 : Statement of Significant Accounting Policies

e. Financial Instruments

Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist.

f. Impairment of Assets

At each reporting date, the association reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the assets, being the higher of the asset's fair value less costs to sell and value-in-use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Where it is not possible to estimate the recoverable amount of an individual asset, the association estimates the recoverable amount of the cash-generating unit to which the asset belongs.

h. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposit at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

i. Revenue and Other Income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discount and volume rebates allowed. For this purpose, deferred consideration is not discounted to present values when recognising revenue.

Grant and donation income is recognised when the entity obtains control over the funds, which is generally time of receipt.

Revenue from sales of goods is recognized upon delivery as this corresponds to the transfer of significant risks and rewards of ownership of the goods and the cessation of all involvement in those goods.

Interest revenue is recognized using the effective interest rate method, which, for floating rate financial assets is the inherent in the instrument.

k. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to confirm to changes in presentation for the current financial year.

l. Key Estimates – Impairment

The association assesses impairment at each reporting date by evaluation of conditions and events specific to the group that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

m. Key Judgments – Doubtful Debt Provision

The association makes no provision of doubtful debts. Any bad debts are written off as an expense by the committee of management when identified.
